Explorations in Automatic Thesaurus Discovery presents an automated method for creating a first-draft thesaurus from raw text. It describes natural processing steps of tokenization, surface syntactic analysis, and syntactic attribute extraction. From these attributes, word and term similarity is calculated and a thesaurus is created showing important common terms and their relation to each other, common verb--noun pairings, common

expressions, and word family members. The techniques are tested on twenty different corpora ranging from baseball newsgroups, assassination archives, medical X-ray reports, abstracts on AIDS, to encyclopedia articles on animals, even on the text of the book itself. The corpora range from 40,000 to 6 million characters of text, and results are presented for each in the Appendix. The methods described in the book have undergone extensive evaluation. Their time and space complexity are shown to be modest. The results are shown to converge to a stable state

as the corpus grows. The similarities calculated are compared to those produced by psychological testing. A method of evaluation using Artificial Synonyms is tested. Gold Standards evaluation show that techniques significantly outperform non-linguistic-based techniques for the most important words in corpora. Explorations in Automatic Thesaurus Discovery includes applications to the fields of information retrieval using established testbeds, existing thesaural enrichment, semantic analysis. Also included are applications showing how to

of knowledge-driven competition. Many attempt to meet the challenge by investing in expensive knowledge-driven change management systems. Such systems are useless, and sometimes even harmful, for making strategic decisions because they do not distinguish between what is strategically relevant and what is not. This Management-for-Results Handbook focuses on identifying and managing the specific, critical knowledge assets that your organization needs to disrupt your competitors, including tacit experience of key employees, a deep understanding of customers'

needs, valuable patents and copyrights, shared industry practices, and customer- and supplier-generated innovations. The authors present two aspects of Change Management: (1) traditional Change Management as it impacts the project management team's activities and (2) a suggested new approach to Change Management directed at changing the culture. The focus is to prepare the people impacted by the project and change activities to accept and adapt to the new/changed working conditions. The first half of the book deals with traditional Change

Management, which covers the topics of remembering, understanding, and applying. The second half presents the authors' new approach to changing the culture, which deals with analyzing, evaluating, and creating.

The third volume of the European Yearbook of International Economic law focuses on two major topics of current academic and political interest. Firstly, it addresses the 10th anniversary of China's accession to the WTO and its implications; secondly, it deals with different legal aspects of global energy markets.

This is the book that has been electrifying Rome and the rest of Europe for three years! This fascinating inquiry into the theories and the truths of the most disconcerting mystery of the 20th Century was a huge best-seller in Europe. On June 26, 2000, Vatican officials (including Cardinal Bertone) released what they claim was the Third Secret of Fatima. They further said that it was a prediction of the attempted assassination of Pope John Paul II in 1981. Antonio Socci, an acclaimed Italian journalist and television personality, originally sided with the

Vatican's interpretation of the Third Secret. Upon closer investigation of this matter, the evidence led him to the conclusion that there is another document of the Third Secret containing the actual words of Our Lady. So far, the Vatican is still hiding this text while claiming that all is released. Antonio Socci, for the first time, in this book produces the testimony of a still-living witness from the inner circle of Pope John XXIII, to prove his point. This book has caused a public sensation and debate. Far from being a dead issue; the urgent message of Our Lady to the

shepherd children of Fatima is now being more critically discussed and examined than ever before.

The essays in this volume, originally published in 1992, examine some of the pervasive implications of Victorian medievalism, and assess its creative manifestations and dual capacities for expression of reformist anger and escapist retreat. Some of the emotional and intellectual reasons for the strong Victorian attraction to 'medieval' history and literature are discussed and emblematic responses to this attraction are
