The color of blood ranges from crimson to a dark brown-red and may have a slightly orange hue. In the RGB color spectrum, it often consists only of the color red, with no green or blue component; in the CMYK color model blood red has no cyan, and consists only of magenta and yellow with a small amount of black.

For Latinos, the doors of higher education have opened only a crack. But in 1985 an ambitious young Mexican-American from rural California became one of the few to enter America's most prestigious university. The lessons Ruben Navarrette, Jr., learned as he journeyed from his middle-class surroundings to an exclusive 350-year-old world of privilege would forever alter his life, shape his views ...
