The modified essay question is one of the three written papers in the MRCGP. The book contains 20 modified essay questions, each of which has 10 cameos (situations with answers). This book has been revised to include recent changes to the modified essay question, (ie. a set of cameos instead of one family history). These are related to general practice with consultations in the surgery being the most common.

Now a Major Motion Picture, Starring Simon Baker, Elizabeth Debicki, and Richard Roxburgh *Breath* is a story of risk, of learning one's limits by challenging death. On the wild, lonely coast of Western Australia, two thrill-seeking teenage boys fall under the spell of a veteran big-wave surfer named Sando. Their mentor urges them into a regiment of danger and challenge, and the boys test themselves and each other on storm swells and over shark-haunted reefs. The boys give no thought to what they could lose, or to the demons that drive their mentor on into ever-greater danger. Venturing beyond all caution--in sports, relationships, and sex--each character approaches a point from which none of them will return undamaged.

Help your students navigate complex texts in history/social studies and English language arts! This book shows you how to use a key tool—text-based questions—to build students ' literacy and critical thinking skills and meet the Common Core State Standards. You ' ll learn how to ask text-based questions about different types of nonfiction and visual texts, including primary and secondary sources, maps, charts, and paintings. You ' ll also get ideas for teaching students to examine point of view, write analytical responses, compare texts, cite textual evidence, and pose their own high-level questions. The book is filled with examples that you can use immediately or modify as needed. Each chapter ends with a reflection section to help you adapt the ideas to your own classroom. What ' s Inside: Helpful information on teaching different types of nonfiction texts, including literary nonfiction, informational texts, primary and secondary sources, and visual texts Ideas for locating primary sources Questions students should ask about every text Techniques for soliciting higher-order questions from students Ways to get students to think critically about the relationships between texts Strategies to help students integrate information from different types of sources, a skill that will help students respond to performance tasks on the PARCC and SBAC assessments and DBQs on AP exams Tips for teaching students to write good responses to text-based questions, including how to cite sources and incorporate point of view Ideas for using rubrics and peer grading to evaluate students ' responses Connections to the informational reading standards of the Common Core State Standards for English Language Arts for grades 3-12 and of the Common Core State Standards for Literacy in History/Social Studies, Science, and Technical Subjects

#1 New York Times bestseller “ Barry will teach you almost everything you need to know about one of the deadliest outbreaks in human history. ” —Bill Gates "Monumental... an authoritative and disturbing morality tale."—Chicago Tribune The strongest weapon against pandemic is the truth. Read why in the definitive account of the 1918 Flu Epidemic. Magisterial in its breadth of perspective and depth of research, *The Great Influenza* provides us with a precise and sobering model as we confront the epidemics looming on our own horizon. As Barry concludes, "The final lesson of 1918, a simple one yet one most difficult to execute, is that...those in authority must retain the public's trust. The way to do that is to distort nothing, to put the best face on nothing, to try to manipulate no one. Lincoln said that first, and best. A leader must make whatever horror exists concrete. Only then will people be able to break it apart." At the height of World War I, history ' s most lethal influenza virus erupted in an army camp in Kansas, moved east with American troops, then exploded, killing as many as 100 million people worldwide. It killed more people in twenty-four months than AIDS killed in twenty-four years, more in a year than the Black Death killed in a century. But this was not the Middle Ages, and 1918 marked the first collision of science and epidemic disease.
