Birk is een boek over kinderlijk schuldgevoel, magisch denken, verdriet, onverdraaglijk gemis, en de ontwikkeling van een verstoorde moeder-zoon relatie. Dit alles speelt zich af op een klein verlaten eiland met maar drie bewoners en een verlaten huis. De afwezigheid van een sociaal vangnet versterkt elke ontwikkeling. Het is prachtig geschreven!

Mikael woont met zijn ouders op een afgelegen eiland tussen Schotland en Noorwegen. Op een dag verdwijnt zijn vader in zee en Mikael verzwijgt wat er is gebeurd. Schuld, troost en verwijten stapelen zich op, tot zijn moeder het onmogelijke van hem verlangt.

Thirteen-year-old Brian lives in a trailer on a forgotten patch of land with his divorced and uncaring father. His older brother Lucien, physically and mentally disabled, has been institutionalized for years. While Lucien's home is undergoing renovations, he is sent to live with his father and younger brother for the summer. Their detached father leaves Brian to care for Lucien's special needs. But how do you look after someone when you don't know what they need? How do you make the right choices when you still have so much to discover?

In *Astrology: Understanding the Birth Chart*, Kevin Burk takes you step-by-step from the core basics to the finer complexities of chart interpretation while avoiding sidetracks into obscure techniques and fuzzy thinking. As a teacher, Burk also understands that a real grasp of the subject entails more than just learning the techniques-it also involves grasping the underlying principles that make those techniques valid. *Astrology: Understanding the Birth Chart* is designed to be useful to all students of astrology, from beginners to more advanced practitioners, and will help you develop an integrated, synthesized approach to understanding the birth chart. You will discover how classical astrology can enrich your understanding of the planets, signs, and houses. You will explore the meaning of the Lunar Nodes, eclipses, the angles, retrograde planets, and aspect patterns. You will also learn how to identify key themes in the chart, and how to relate the different aspects and elements together to gain a holistic understanding of the birth chart-and of the individual. An up-to-date listing of astrological organizations and software programs is included that offers a wealth of resources for any astrologer. In short, this is a well-designed course that provides a solid foundation for anyone who is interested in practicing astrology quickly and with confidence. While many books at this level simply give you a set of techniques and ready-made interpretations, this book will give you a deeper grasp of an art and science that has its expression in the world around us, but its roots in the invisible world of primal origins.

This book weaves all of these factors together to engage in and promote medical, biomedical and psychosocial interventions, including lifestyle changes, for healthier aging outcomes. The text begins with an introduction to age-related changes that increase in disease and disability commonly associated with old age. Written by experts in healthy aging, the text approaches the principles of disease and disability prevention via specific health issues. Each chapter highlights the challenge of not just increasing life expectancy but also decreasing disease burden and disability in old age. The text then shifts into the whole-person implications for clinicians working with older patients, including the social and cultural considerations that are necessary for improved outcomes as Baby Boomers age and healthcare systems worldwide adjust. *Healthy Aging* is an important resource for those working with older patients, including geriatricians, family medicine physicians, nurses, gerontologists, students, public health administrators, and all other medical professionals.

David Hewson's *The Killing 3* is the novelization of the third series of the hit Danish crime drama, *The Killing*. Detective Inspector for homicide, Sarah Lund, is contacted by old flame Mathias Borch from National Intelligence. Borch fears that what first appeared to be a random killing at the docks is the beginning of an assassination attempt on Prime Minister Troels Hartmann. The murder draws attention towards the shipping and oil giant, Zeeland, run by billionaire Robert Zeuthen. When Zeuthen's 9-year-old daughter, Emilie, is kidnapped the investigation takes on a different dimension as it soon becomes clear that her disappearance is linked to the murder of a young girl in Jutland some years earlier. Hartmann is in the middle of an election campaign, made all the more turbulent because of the mounting financial crisis. He needs Zeeland's backing. Lund needs to make sense of

the clues left by Emilie's perpetrator before it's too late. And can she finally face the demons that have long haunted her?

Forty-two autobiographical stories relate the daily adventures and misadventures of seven brothers living in Belgium, told through the eyes of the youngest, who is seven years old.

Tumba, Sweden. A triple homicide, all of the victims from the same family, captivates Detective Inspector Joonas Linna, who demands to investigate the grisly murders -- against the wishes of the national police. The killer is at large, and it appears that the elder sister of the family escaped the carnage; it seems only a matter of time until she, too, is murdered. But where can Linna begin? The only surviving witness is an intended victim -- the boy whose mother, father, and little sister were killed before his eyes. Whoever committed the crimes intended for this boy to die: he has suffered more than one hundred knife wounds and lapsed into a state of shock. He's in no condition to be questioned. Desperate for information, Linna sees one mode of recourse: hypnotism. He enlists Dr. Erik Maria Bark to mesmerize the boy, hoping to discover the killer through his eyes. It's the sort of work that Bark had sworn he would never do again--ethically dubious and psychically scarring. When he breaks his promise and hypnotizes the victim, a long and terrifying chain of events begins to unfurl.

Dark and shocking psychological suspense about a man at war with himself. This is a skillful and assured debut about a deeply unsettling subject Jonathan has returned from prison to his almost deserted, run-down neighbourhood. He has returned to his mother, to his dog, to filling the days with walks on the dunes and caring for the fish he keeps in an aquarium in his bedroom - struggling, like him, to survive the oppressive summer heat. But there is a young girl with a chipped front tooth living next door, and feelings he thought forgotten are coming back to Jonathan. His growing obsession with her threatens to overwhelm his whole life, as well as hers, but he is determined to make the most of this second chance he has been given. He is determined not to let it happen again. Tench is criminal psychologist Inge Schilperoord's daring first novel: unnerving, morally complicated and utterly gripping, it moves brilliantly through true darkness. Inge Schilperoord (born 1973) is a Dutch criminal psychologist. She also works as an editor and reviewer for a number of newspapers and magazines. Tench, her first novel, won the Bronze Owl Prize for best debut, was shortlisted for four other major prizes in the Netherlands and Belgium, and was a five-time book of the year in the Dutch press.
