About Catching Breath. Tuberculosis is an ancient disease, but it's not a disease of history. With more than a million victims every year – more than any other disease, including malaria – and antibiotic resistance now found in every country worldwide, tuberculosis is once again proving itself to be one of the smartest killers humanity has ever faced.

Tuberculosis (TB) is the leading
infectious disease cause of death
worldwide, yet many persons in
industrialized countries think TB is
mainly a historical curiosity or a rare
disease only affecting a few uniquely
vulnerable persons. This paradox is
the inspiration for Kathryn
Lougheed ' s book, *Catching Breath:
The Making and Unmaking of
Tuberculosis* (Figure).

Catching Breath follows the history of TB through the ages, from its time as an infection of hunter-gatherers to the first human villages, which set it up with everything it needed to become the monstrous disease it is today, through to the perils of industrialization and urbanization. It goes on to look at the latest research in fighting the disease, with stories of modern scientific research, interviews with doctors on the TB frontline, and the personal experiences of those affected by the ...
