John Norman has updated his best-selling book, a guide for the firefighter and fire officer who, having learned the basic mechanics of the trade, are looking for specific methods for handling specific situations. In this new fourth edition, readers will find a new chapter on lightweight construction, a new chapter on electrical fires and emergencies, updates to many chapters including such topics as wind-driven fires, and many new illustrations.

The first history of the western polymath, from the fifteenth century to the present day From Leonardo Da Vinci to John Dee and Comenius, from George Eliot to Oliver Sacks and Susan Sontag, polymaths have moved the frontiers of knowledge in countless ways. But history can be unkind to scholars with such encyclopaedic interests. All too often these individuals are remembered for just one part of their valuable achievements. In this engaging, erudite account, renowned cultural historian Peter Burke argues for a more rounded view. Identifying 500 western polymaths, Burke explores their wide-ranging successes and shows how their rise matched a rapid growth of knowledge in the age of the invention of printing, the discovery of the New World and the Scientific Revolution. It is only more recently that the further acceleration of knowledge has led to increased specialisation and to an environment that is less supportive of wide-ranging scholars and scientists. Spanning the Renaissance to the present day, Burke changes our understanding of this remarkable intellectual species.

The first biography of the epic life of one of the most important, enigmatic and private artists of the 20th century. Drawn from almost 40 years of conversations with the artist, letters and papers, it is a major work written by a well-known British art critic. Lucian Freud (1922-2011) is one of the most influential figurative painters of the 20th century. His paintings are in every major museum and many private collections here and abroad. William Feaver's daily calls from 1973 until Freud died in 2011, as well as interviews with family and friends were crucial sources for this book. Freud had ferocious energy, worked day and night but his circle was broad including not just other well-known artists but writers, bluebloods, royals in England and Europe, drag queens, fashion models gamblers, bookies and gangsters like the Kray twins. Fierce, rebellious, charismatic, extremely guarded about his life, he was witty, mischievous and a womanizer. This brilliantly researched book begins with the Freuds' life in Berlin, the rise of Hitler and the family's escape to London in 1933 when Lucian was 10. Sigmund Freud was his grandfather and Ernst, his father was an architect. In London in his twenties, his first solo show was in 1944 at the Lefevre Gallery. Around this time, Stephen Spender introduced him to Virginia Woolf; at night he was taking Pauline Tennant to the Gargoyle Club, owned by her father and frequented by Dylan Thomas; he was also meeting Sonia Orwell, Cecil Beaton, Auden, Patrick Leigh-Fermor and the Aly Khan, and his muse was a married femme fatale, 13 years older, Lorna Wishart. But it was Francis Bacon who would become his most important influence and the painters Frank Auerbach and David Hockney, close friends. This is an extremely intimate, lively and rich portrait of the artist, full of gossip and stories recounted by Freud to Feaver about people, encounters, and work. Freud's art was his life—"my work is purely autobiographical"—and he usually painted only family, friends, lovers, children, though there were exceptions like the famous small portrait of the Queen. With his later portraits, the subjects were often nude, names were never given and sittings could take up to 16 months, each session lasting five hours but subjects were rarely bored as Freud was a great raconteur and mimic.
