Students will write the “recipe” using their chemical reaction cookbook. They will describe the properties of the reactants and the products. In order to complete this lab, I will use the kit from Carolina Biological Supply. Making Soap. The next “recipe” in the students’ recipe book will be for making soap.

One serving of this dressing has nearly one-fourth of your daily sodium intake—and that's if you stick to two tablespoons. Excess salt intake is linked to elevated blood pressure, a higher risk of heart disease, and sabotaged weight-loss goals. It also causes bloating, so cutting down on sodium is one of the fastest ways to flatten your belly.
