California has one of the most complex procedural systems in the nation. This Nutshell provides an overview of the many significant differences that impact the choice between state and federal courts in California. The authors succinctly analyze California procedure and expose different solutions to the practice problems found in a state containing parallel systems of state and federal procedure.

This title analyzes the law governing all major steps in the criminal justice process, beginning with investigation and ending with post-appeal collateral attacks. All major themes are covered, with emphasis upon those basic issues deemed most significant in the case law and literature. Because of their special importance, leading Supreme Court opinions are given in-depth treatment. All Hornbook sections are cross-referenced to comparable sections of the authors' 7-volume Criminal Procedure treatise (readily available on Westlaw database CRIMPROC) containing more detailed analysis and citations to additional supporting authorities.
