It will be a valuable resource for mental health professionals and others who seek to intervene in a variety of mental health problems. "A systematic introduction to indigenous Chinese psychotherapy is long overdue. Explicating human nature as envisioned by traditional Chinese thinkers, this book is a timely answer to the increasingly contested question of what it means to be human in an era when gene editing keeps tinkering nature's design." Louise Sundararajan, Ph.D., Ed.D., Fellow of the American Psychological Association; Chair and founder of the Task Force on Indigenous Psychology. "This is an important book. indigenous Chinese psychology. This book is the next installment in that progression. The world-wide community of scholars needs to know what an indigenous psychology looks like that is sensitive to the insights of Confucianism, Buddhism and Taoism. This book makes that contribution and it is my hope that it will be widely read." Alvin Dueck, PhD, Distinguished Senior Professor of Psychology, Fuller Graduate School of Psychology, USA Foundations of Chinese Psychotherapies is a valuable introduction to how the Confucian, Taoist, and Buddhist traditions understand the human psyche, and in particular psychic abilities. This clinical guide describes a different way to treat borderline personality disorder. Rather than using the currently available therapies, the author presents a trans-theoretical approach that combines the essential elements of all effective treatments. The book offers a framework for understanding the nature and origins of borderline personality disorder that is used to define treatment targets and strategies. Building on this foundation, systems for organizing treatment are presented around

change mechanisms common to all effective therapies. Interventions are presented in modules, allowing therapists to select treatment according to the needs of patients. Treatment is explained by dividing therapy into phases, each addressing different problems. Methods are described to promote engagement, manage suicidality, treat crises, improve emotional regulation, restructure maladaptive interpersonal behaviours, construct a new sense of self and identity, and build a life worth living. The volume will interest mental health professionals from all disciplines and different levels of expertise.
