This book is the third in the series of volumes which provide the papers of the conferences held at Queens' College, Cambridge by the Construction History Society. Papers cover different aspects of the history of construction, including studies of different building materials, building firms, the development and education of building professionals, the construction of buildings and infrastructure, methods and techniques of construction, and other subjects related to the history and development of buildings.

Fundamental Skills for Patient Care in Pharmacy Practice enables students and new pharmacists to master the skills associated with clinical care in either the inpatient or outpatient setting. In accessible steps, this valuable resource provides the tools for gaining medication histories from patients and counseling them on the most effective and safe manner to take medications. Each chapter explores the background and practice of a critical skill, tools that aid in its development and mastery, and tips for success. Students and pharmacists will come away with the knowledge to identify drug-related problems and formulate plans for solutions to these problems. Fundamental Skills for Patient Care in Pharmacy Practice prepares future pharmacists to communicate
