Examines how Kim Il Sung grabbed power and plunged his country into war against the United States while the youngest fighter pilot in his air force was playing a high-risk game of deception--and escape. As Kim ascended from Soviet puppet to godlike ruler, No Kum Sok noisily pretended to love his Great Leader. That is, until he swiped a Soviet MiG-15 and delivered it to the Americans, not knowing they were offering a \$100,000 bounty for the warplane (the equivalent of nearly one million dollars today).

draw fire, the wild weasels are elite fighter squadrons with the most dangerous job in the Air Force. One of the greatest aviation memoirs ever written, *Viper Pilot* is an Air Force legend's thrilling eyewitness account of modern air warfare. For twenty years, Lieutenant Colonel Dan Hampton was a leading member of the Wild Weasels, logging 608 combat hours in the world's most iconic fighter jet: the F-16 "Fighting Falcon," or "Viper." He spearheaded the 2003 invasion of Iraq, leading the first flight of fighters over the border en route to strike Baghdad. the eight Israeli pilots who attacked Saddam Hussein ' s nuclear reactor at Osirik in 1981. In 2003, his career took an even more dramatic turn: he was the senior signatory of the famous " Pilots ' Letter, " in which Spector and 27 other Israeli pilots stated their refusal to bomb targets in Palestine where collateral damage would likely be severe. His maverick conscience is well on display in this artfully written memoir, which is currently a 10-week-and-counting bestseller in Israel and has been licensed in Brazil as well. The son of a family that immigrated to Palestine at the turn of the 20th century, whose father and mother served in the Palmach, Israel ' s early clandestine commando force, Spector has

written a rich and reflective meditation on loyalty, on what is right and wrong in war, and on his dedication to the idea and reality of the state of Israel. The Pilots' Letter ended Spector's military career, but also made him one of the most compelling and celebrated defenders of the conscience of the Jewish state. In that battle, as in his previous battles against Nasser's MiGs, his mother's constant lesson to him sustained him: "All from within." General Spector's first book, *A DREAM IN BLACK AND AZURE* (1992; never translated into English), won the Sade Literary Award, given to him personally by Prime Minister Yitzhak Rabin. Donald S. Lopez describes how it was to be “ behind the stick ” as a test pilot from 1945 to 1950, when the U.S. military was shifting from war to peacetime operations and from propeller to jet aircraft. An ace pilot who had served with Gen. Claire Chennault's Flying Tiger Fighter Group, Lopez was assigned at the close of World War II to the elite Proof Test Group of the Air Proving Ground Command. Located at Eglin Field (later Eglin Air Force Base) in Florida, the group determined the operational suitability of Air Force weapons systems and aircraft and tested the first operational jet, the P-80 Shooting Star. Jet fighters required new techniques, tactics, and weaponry. Lopez recounts historic test flights in the P-59,
