~~Lawrence in Arabia: War, Deceit, Imperial Folly and the~~ ---

The truth embodied in that statement is reinforced by Scott Anderson's skillful portrayal of Thomas Edward Lawrence, whose legendary exploits in the Middle East intersected with three momentous decisions made by Britain (and France) during and immediately after the end of World War I: to support the Hashemite military uprising against Turkey (1916-18), to sign the secret Sykes-Picot agreement (1916) and to issue the Balfour Declaration (1917).

Based on four years of intensive primary document research, Lawrence in Arabia definitively overturns received wisdom on how the modern Middle East was formed. Sweeping in its action, keen in its portraiture, acid in its condemnation of the destruction wrought by European colonial plots, this is a book that brilliantly captures the way in which the folly of the past creates the anguish of the present.

One of the Best Books of the Year: The Christian Science Monitor NPR The Seattle Times St. Louis Post-Dispatch Chicago Tribune A New York Times Notable Book Finalist for the National Book Critics Circle Award in Biography The Arab Revolt against the Turks in World War I was, in the words of T. E. Lawrence, "a sideshow of a sideshow." As a result, the conflict was shaped to a remarkable degree by a small handful of adventurers and low-level officers far removed from the corridors of power. At the center of it all was Lawrence himself. In early 1914 he was an archaeologist excavating ruins in Syria; by 1917 he was riding into legend at the head of an Arab army as he fought a rearguard action against his own government and its imperial ambitions. Based on four years of intensive primary document research, Lawrence in Arabia definitively overturns received wisdom on how the modern Middle East was formed.

The Arab Revolt against the Turks in World War One was, in the words of T.E. Lawrence, 'a sideshow of a sideshow'. Amidst the slaughter in European trenches, the Western combatants paid scant attention to the Middle Eastern theatre. As a result, the conflict was shaped to a remarkable degree by a small handful of adventurers and low-level officers far removed from the corridors of power. At the centre of it all was Lawrence. In early 1914 he was an archaeologist excavating ruins in the sands of Syria; by 1917 he was battling both the enemy and his own government to bring about the vision he had for the Arab people. Operating in the Middle East at the same time, but to wildly different ends, were three other important players: a German attach\u00e9, an American oilman and a committed Zionist. The intertwined paths of these four young men - the schemes they put in place, the battles they fought, the betrayals they endured and committed - mirror the grandeur, intrigue and tragedy of the war in the desert.

The Arab Revolt against the Turks in World War I was, in the words of T.E. Lawrence, "a sideshow to a sideshow." As a result, the conflict was shaped to a remarkable degree by four men far removed from the corridors of power. Curt Pruefer was an effete academic attached to the German embassy in Cairo, whose clandestine role was to foment jihad against British rule. Aaron Aaronsohn was a renowned agronomist and committed Zionist who gained the trust of the Ottoman governor of Palestine. William Yale was the fallen scion of the American aristocracy, who traveled the Ottoman Empire on behalf of Standard Oil, dissembling to the Turks in order gain valuable oil concessions. At the center of it all was Colonel Thomas Edward Lawrence. In early 1914 he was an archaeologist digging ruins in Syria; by 1919 he was riding into legend at the head of an Arab army, as he fought a rearguard action against his own government and its imperial ambitions. Based on four years of intensive primary document research, Lawrence in Arabia definitively overturns received wisdom on how the modern Middle East was formed. Sweeping in its action, keen in its portraiture, acid in its condemnation of the destruction wrought by European colonial plots, this is a book that brilliantly captures the way in which the folly of the past creates the anguish of the present.

A wealth of new research and thinking on Lawrence, the Arab Revolt, and World War One in the Middle East, providing essential background to today's violent conflicts Rarely is a book published that revises our understanding of an entire world region and the history that has defined it. This groundbreaking volume makes just such a contribution. Neil Faulkner draws on ten years of field research to offer the first truly multidisciplinary history of the conflicts that raged in Sinai, Arabia, Palestine, and Syria during the First World War. In Lawrence of Arabia's War, the author rewrites the history of T. E. Lawrence's legendary military campaigns in the context of the Arab Revolt. He explores the intersections among the declining Ottoman Empire, the Bedouin tribes, nascent Arab nationalism, and Western imperial ambition. The book provides a new analysis of Ottoman resilience in the face of modern industrialized warfare, and it assesses the relative weight of conventional operations in Palestine and irregular warfare in Syria. Faulkner thus reassesses the historic roots of today's divided, fractious, war-torn Middle East.

Michael Korda's Hero is an epic biography of the mysterious,Englishman whose daring exploits made him an object of intense fascination. Known the world over as 'Lawrence of Arabia. An Oxford Scholar and archaeologist, T.E. Lawrence was sent to Cairo as an intelligence officer in 1916 and vanished into the desert in 1917. He united and led the Arab tribes to defeat the Turks and eventually capture Damascus, an adventure he recorded in the classic Seven Pillars of Wisdom. A born leader, utterly fearless and seemingly impervious to pain and danger, he remained modest, and retiring. Farsighted diplomat, brilliant military strategist, the first media celebrity, and acclaimed writer, Lawrence was a visionary whose achievements transcended his time: had his vision for the modern Middle East been carried through, the hatred and bloodshed that have since plagued the region might have prevented. The democratic reforms he would have implemented as British High Commissioner of Egypt, are those the Egyptians are now demanding, 91 years later. Ultimately, as this magisterial work demonstrates, Lawrence remains the paradigm of the hero in modern times.

Provides a portrait of Fred Cuny, a renegade engineer who journeyed into countries torn apart by disaster, until his disappearance on a mission to the Russian republic of Chechnya.

Seven Pillars of Wisdom is a memoir of the soldier known as 'Lawrence of Arabia.' Lawrence is a fascinating and controversial figure and his talent as a vivid and imaginative writer shines through on every page of his masterpiece. 'Seven Pillars of Wisdom' written between 1919 and 1926, is an extraordinary tale of action, politics and adventure. The story describes heroism through instances of war by a man who not only shaped events but was molded by them. The genre of the book can be related to many broad subjects like political history, military strategy, pathology or travel story. Lawrence, known as the defender of the empire, had found war in the Arab world and a long-lasting sideline to the War to End All Wars. This war produced more war during the time, in which, along with many other eminent writers, Lawrence was also involved. Seven Pillars of Wisdom provides a unique portrait of this extraordinary man and an insight into the birth of the Arab nation.
