Tales of the Tikongs was translated into Danish in 2002 by John Allan Pedersen (as Stillehavsfortællinger, ISBN 87-7514-076-4) The BBC History magazine writes that Hauʻlofa provided a "reconceptualisation of the Pacific": In his "influential essay Our Sea of Islands", he argued that Pacific Islanders "were connected rather than separated by the sea. Far from being sea-locked peoples marooned on coral or volcanic tips of land, islanders formed an oceanic community based on voyaging."

Epeli Hauʻlofa - Wikipedia
