This book addresses ethical issues and principles in human services professions including social work, counseling, psychology, and marriage and family therapy. All of these professions must be sensitive to ethical standards and dilemmas, particularly given the increase in litigation surrounding ethical issues. This book leads the reader through a personal journey of discovery, assessment, and clarification of values and ethics. The focus is to help the reader assimilate ethical principles, thus becoming an ethical practitioner. The book reflects the ethical codes of the American Counseling Association (ACA), the American Psychological Association (APA), National Association of Social Workers (NASW), and the American Association of Marriage and Family Therapy (AAMFT). Sound pedagogy includes learning objectives, cases, and guided exercises, all intended to raise the reader's self-awareness of issues of values, ethics, and professional standards. For professionals in social work, counseling, psychology, or marriage and family therapy.

In addition to providing foundational information about ethical codes and legal statutes, this new text advocates for counseling personnel to view ethical issues as challenges for personal and professional growth. Written in an accessible, concise and easy to read style, this book endeavors to broaden the traditional focus of ethical study to include topics that students and practicing clinicians will find consistent with their own personal strivings and professional needs. While covering the traditional core percepts of professional ethics in considerable detail: confidentiality, informed consent, boundaries and the use of power, and competency and professional responsibility, it also advocates for counseling personnel to view ethical issues as challenges for personal and professional growth. And, it includes a number of critical topics that counselors and therapists face or will face in daily practice. These include organizational ethics, virtue ethics, and an expanded view of multicultural ethics with a focus on community values as well as on religious and spiritual issues. This new book includes a special chapter in the appendix that emphasizes ways in which counselors and therapists can grow and achieve excellence in their personal and professional lives. Unique and essential coverage of organizational ethics (OE) is addressed making readers aware of how organizational dynamics can exert such powerful influence on ethical decision making (Ch 4 & 10-14). Unique coverage of the ethical considerations involving spiritual and religious issues as well as the use of alternative interventions in counseling and psychotherapy are covered, including the common lawsuits brought against counselors and therapists using spiritual and alternative interventions (Ch 3). A unique section in the appendix describes the psychological and philosophical basis of ethical decision-making for readers who want and need a more in-depth discussion.

The rise of online tools is altering the dynamic of modern classrooms as methods of educating students are technologically expanding. Due to this advancement, institutions and educators of all levels are reconsidering their curriculum in order to integrate new technical demands. Teacher Education for Ethical Professional Practice in the 21st Century is an authoritative reference work for the latest scholarly research on the emerging use of technology in the educational system. Featuring coverage on proper methods, arising challenges, and educator preparation, this publication is an essential reference source for academicians, professionals and researchers seeking current research on the impact of the digital age on education.

This edition has been totally revised to be consistent with the APS Code and Ethical Guidelines, and includes five new chapters to incorporate guidance on recent developments in the professional practice milieu. This book integrates current ethics knowledge and research with practical recommendations to address the variety of ethical concerns in everyday professional practice. The book provides a framework for ethical decision-making and reviews ethical issues pertinent to professional practice, illustrated with practical examples relevant to the Australian context. The book is intended as an ethics textbook for fourth year and postgraduate psychology students and for provisionally registered psychologists completing the supervised practice pathway to registration. It is also a highly useful reference for all practising psychologists.

The Good Life of Teaching extends the recent revival of virtue ethics to professional ethics and the philosophy of teaching. It connects long-standing philosophical questions about work and human growth to questions about teacher motivation, identity, and development. Makes a significant contribution to the philosophy of teaching and also offers new insights into virtue theory and professional ethics Offers fresh and detailed readings of major figures in ethics, including Alasdair MacIntyre, Charles Taylor, and Bernard Williams and the practical philosophies of Hannah Arendt, John Dewey and Hans-Georg Gadamer Provides illustrations to assist the reader in visualizing major points, and integrates sources such as film, literature, and teaching memoirs to exemplify arguments in an engaging and accessible way Presents a compelling vision of teaching as a reflective practice showing how this requires us to prepare teachers differently

This exciting new edition provides an overview of the main professional, ethical and research issues that are required knowledge for counsellors, therapists, psychologists and psychiatrists engaging in therapeutic or clinical work. These issues form part of the curriculum and practice requirements of all the major counselling, psychotherapy, psychology and psychiatry professional organisations (including BACP, BPS, HCPC, RCP, UKCP, IACP, IPS and IAHIP). Divided in six clearly defined sections, this book will provide a comprehensive overview of all the major professional practice and ethical issues in one edited volume. The authors are well-known experts in their fields and their work has been brought together with clarity and helpful features, including reflective questions and case vignettes. This new edition has also been updated to include content on social justice, community psychology and professional guidelines, reflecting the latest academic research and clinical developments. This book is unique in the breadth of issues covered and its focus on therapeutic practice. It will be of interest to practitioners and students of psychotherapy, counselling and psychiatry.

As a healthcare practitioner, you will face a broad range of professional dilemmas in your everyday practice. From seeking consent to upholding patient confidentiality, you'll rely on your knowledge of ethics, the law and professional codes of conduct to guide your actions. Balancing these three strands can be difficult, but with detailed scenarios and accessible discussion, this book guides you through the complexities of practice. Taking a practice-based approach, the text explores the combination of ethical, legal and professional issues which characterise the field of healthcare. A range of experienced contributors come together to provide: detailed analysis of confidentiality, accountability, consent, capacity and justice, all grounded within the daily practice context; authoritative guidance through discussion of legal cases, excerpts from statutes and extracts from professional guidelines; realistic scenarios drawn from a range of health settings, unravelling and illustrating the guidelines, statutes and policies which influence practice; advice on balancing the conflicting pressures of the modern healthcare context, from facing time limitations to challenging the unprofessional practice of others. Ethics, Law and Professional Issues puts you at the centre of some of a practitioner's most difficult decisions. It is therefore an essential resource for any student of healthcare looking to develop an ethically, legally and professionally sound approach to practice.

Cultivating Moral Character and Virtue in Professional Practice is a pioneering collection of essays focused on the place of character and virtue in professional practice. Professional practices usually have codes of conduct designed to ensure good conduct; but while such codes may be necessary and useful, they appear far from sufficient, since many recent public scandals in professional life seem to have been attributable to failures of personal moral character. This book argues that there is a pressing need to devote more attention in professional education to the cultivation or development of such moral qualities as integrity, courage, self-control, service and selflessness. Featuring contributions from distinguished leaders in the application of virtue ethics to professional practice, such as Sarah Banks, Ann Gallagher, Geoffrey Moore, Justin Oakley and Nancy Sherman, the volume looks beyond traditional professions to explore the ethical dimensions of a broad range of important professional practices. Inspired by a successful international and interdisciplinary conference on the topic, the book examines various ways of promoting moral character and virtue in professional life from the general ethical perspective of contemporary neo-Aristotelian virtue theory. The professional concerns of this work are of global significance and the book will be valuable reading for all working in contemporary professional practices. It will be of particular interest to academics, practitioners and postgraduate students in the fields of education, medicine, nursing, social work, business and commerce and military service.

Pamphlet is a succinct statement of the ethical obligations and duties of individuals who enter the nursing profession, the profession's nonnegotiable ethical standard, and an expression of nursing's own understanding of its commitment to society. Provides a framework for nurses to use in ethical analysis and decision-making.

Pharmacy Ethics: A Foundation for Professional Practice provides a model for examining and resolving ethical dilemmas, thereby helping student pharmacists understand the ethical decision-making process in professional practice.
