The Fly On The Ceiling

Title: The Fly on the Ceiling Author: Julie

Glass How would you describe the plot? This

book is about a guy named Rene Decartes, who

was a philosopher and he investigates if a

fly can land in the same spot twice. How

would you describe the characters? Rene seems

very intelligent. He really thinks out his

René Descartes and the Fly on the Ceiling The coordinate system we commonly use is called the Cartesian system, after the French mathematician René Descartes (1596-1650), who developed it in the 17th century. Legend has it that Descartes, who liked to stay in bed until late, was watching a fly on the ceiling from his bed.

A very famous mathematician called Rene Descartes lay in bed one night. As he lay there, he looked up at the ceiling in his bedroom. He noticed a fly was asleep on the ceiling. Descartes, being a mathematician wondered if he could figure out a way of stating where exactly the fly was on the ceiling.

~~PowerPoint Presentation~~

"Fly" is the tenth episode of the third season of American television drama series Breaking Bad, and the 30th overall episode of the series. Written by Sam Catlin and Moira

The spider is 1 foot below the ceiling and horizontally centred on one 12'x12' wall. The fly is 1 foot above the floor and horizontally centred on the opposite wall. The problem is to find the minimum distance the spider must crawl along the walls, ceiling and/or floor to reach the fly, which remains stationary.

When the fly arrives at the middle (height) of the box, it is the same for the spider to go over the top or over the bottom of the box. When the fly goes still further to the bottom, the spider should go on the bottom of the box. However in some cases it is quicker to go via the side wall instead of either the floor or the ceiling.
