A powerful dystopian drama ahead of its time, about a world in which ageing is no longer feared, and death is no longer inevitable. Now availabine in a stunning new cover look.

When a Pincent Pharmaceutical van is ambushed by the rebel group known as the Underground, its contents come as a huge surprise-not drugs, but corpses in a horrible state. It appears that the pharmaceutical company's top drug, Longevity-which is supposed to eradicate disease and ensure eternal life-isn't living up to its promises. Now a virus is sweeping the country, killing hundreds in its wake, and Longevity is powerless to fight it. But when the unscrupulous head of Pincent claims that the Underground is responsible for releasing the virus, it's up to Peter, Anna, and their friends to alert the world to the terrifying truth behind Longevity before it's too late.

Will Hodges' life is a mess! His mother is dead, he has no friends and he thinks he is being followed by a strange group of people who tell him they know him. But Will can't remember them . . . at first. And when he does, he doesn't like what he can remember. While Will is struggling with unsettling memories, he learns that his past is a lot deeper than many people's, and he has to find out if he is strong enough to break links with the powerful hold that history has on him. This compelling novel, set in an alternate future, challenges readers to consider the role we all have to play in making our society, and asks how much we are prepared to stand up for what's right.

The first book in a YA trilogy set in a reproductively dystopian future. Reminiscent of Margaret Atwood and Aldous Huxley, but for teens. It's the year 2140 and Anna shouldn't be alive. Nor should any of the children she lives with at Grange Hall. The facility is full of kids like her, kids whose parents chose to recklessly abuse Mother Nature and have children despite a law forbidding them from doing so as long as they took longevity drugs. To pay back her parents' debt to Mother Nature, Anna will have to work for the rest of her life. But then Peter appears at the hall, and he tells a very different story about the world outside of the Grange. Peter begs Anna to escape Grange Hall, and to claim a life for herself outside its bleak walls. But even if they get out, they still have to make their way to London, to Anna's parents, and to an underground movement that's determined to bring back children and rid the world of longevity drugs. After a mistake with big financial consequences topples her throne, former "it girl" Miranda Prospero is bitter: she finds herself stranded in a crazed new world, holding court among geeks and misfits at a mall Hot Dog Kabob stand. Then, she gets her chance for revenge. When the storm of the decade snows in the mall workers and last-minute shopaholics for a long winter's night, Miranda sets out to get back at the catty clique who was behind her exile. But there's a complication. She somehow gets handcuffed to sullen loner Caleb. With him (literally) bound to her side, Miranda learns more in one night about her own heart, and human nature, than she ever did as prep royalty. With this twisted take on Shakespeare's The Tempest, authors Kim Askew and Amy Helmes prove again that, from Juliet's grief to Cordelia's rage, no one knew about teen angst better than the Bard. His wisdom holds up nearly half a millennium later.

To survive you need people watching you, following your every move. That's the only currency now: being interesting, being liked ... And, of course, you have to update every fifteen minutes. It means everyone knows where you are, what you're doing; it means that there are no secrets... Everybody watches everyone else; nothing is hidden. And for those who fail to 'update' every fifteen minutes, the consequences are deadly. Evie and Raffy may have escaped the City but they still fear for their lives. Now the only person who can help them is Frankie, a total stranger, the most popular girl in the world, watched every second by millions of people. But Frankie has other ideas... And all the time, Lucas is waiting desperately for word from Evie, word that she is coming back to him. The conclusion to Gemma Malley's terrifyingly dark vision of our near future will leave you gasping for air.

What if the ordinary things in life suddenly...disappeared? Aila Quinn ' s mother, Juliet, has always been a mystery: vibrant yet guarded, she keeps her secrets beyond Aila ' s reach. When Juliet dies, Aila and her younger brother Miles are sent to live in Sterling, a rural town far from home—and the place where Juliet grew up. Sterling is a place with mysteries of its own. A place where the experiences that weave life together—scents of flowers and food, reflections from mirrors and lakes, even the ability to dream—vanish every seven years. No one knows what caused these " Disappearances, " or what will slip away next. But Sterling always suspected that Juliet Quinn was somehow responsible—and Aila must bear the brunt of their blame while she follows the chain of literary clues her mother left behind. As the next Disappearance nears, Aila begins to unravel the dual mystery of why the Disappearances happen and who her mother truly was. One thing is clear: Sterling isn ' t going to hold on to anyone's secrets for long before it starts giving them up.
